Application Code: FOSS2020SS-11

The PV Technology Laboratory of FOSS Research Centre for Sustainable Energy of the University of Cyprus, announces one (1) vacancy for a full or part-time Special Scientist position to work on research projects at FOSS Research Centre for Sustainable Energy.

It should be mentioned that one (1) month of full-time employment at the University of Cyprus corresponds to 140 hours.

REQUIRED QUALIFICATIONS:

- First Degree in Electrical Engineering, Mechanical Engineering, Applied Mathematics, or Physics, with at least a 2.1 class or equivalent.

ADDITIONAL QUALIFICATIONS:

Ideally, the successful candidate must have experience in research programs related to the research fields of the Photovoltaic Technology Laboratory. Prior experience in any of the following fields will be beneficial:

- Power Systems.
- Smart Grids.
- Artificial Neural Networks, expert systems and applications to the field of energy.
- ICT applications in the field of energy.
- Programming in Python especially for energy related applications.

High academic performance and interest in research are considered important qualifications.

DUTIES AND RESPONSIBILITIES:

The Special Scientist will be conducting research according to the needs of the research projects of the Photovoltaic Technology Laboratory in the field of Solar Energy and specifically, Photovoltaic Technology. The duties, apart from the research activity, will include the following:

- Writing Reports and research publications.
- Research Proposal Preparation.
- Support in writing Research Proposals.
- Supervision of research projects conducted by bachelor (final year students) and postgraduate students.
- Support in research project management.
- Contribution to the dissemination of results and in educational activities.
EMPLOYMENT TERMS:

The monthly employment cost for full time employment (140 hrs/month) is in the range of €8,57/hr - €20/hr or €1200-2800 (monthly gross salary €1044,39 – 2436,90). From this amount, employer and employee contributions to the various Government Funds as well as any income tax will be deducted. The salary can vary depending on experience, qualifications, and specific duties in research projects involved. The initial contract, which is on an hourly basis, is for one (1) year with the possibility of renewal based on successful progress. 13th salary is not provided.

Ideally, the position should be combined with an application for a PhD at the Department of Electrical and Computer Engineering, University of Cyprus and the research work that will be carried out will be the subject of the doctoral thesis.

INTERESTED CANDIDATES SHOULD SUBMIT THE FOLLOWING:

1. Letter of interest for the specific position.
2. Full CV including description of previous experience, as well as reference to the grades of degrees and school certificate [apolyterion].
3. Copies of degrees and transcripts of first degree (and of Master’s degree/degrees, if applicable).
4. Name and contact details of two referees for recommendation letters.

by email to the following address: foss.vacancies@gmail.com and nicolaou.anastasia@ucy.ac.cy by Monday, 16th of November 2020.

*The application must include the application code FOSS2020SS-11.
